

Summary of 26th Technical Conference

1. Date: July 5, 2019 (Fri.) 09:50 - 12:00
2. Place: Abiko Area, Central Research Institute of Electric Power Industry

3. Participants:

Chair: Yokoo (NRRC)

Members: Sasada (Hokkaido EPCO, substitute for Katsuumi), Kanazawa (Tohoku EPCO), Tani, Murano (TEPCO Holdings), Nakagawa, Hamada (Chubu EPCO), Ueno (Hokuriku EPCO), Miyata, Tada, Yoshihara (Kansai EPCO), Hayashi (Chugoku EPCO), Watanabe (Shikoku EPCO), Hashimoto (Kyushu EPCO), Yamaguchi (JAPC), Ogaki (JNFL), Ishikuro (J-Power, substitute for Ishikura), Usui (Toshiba), Konno (Hitachi-GE), Yamagishi (MHI), Asahara (FEPC, substitute for Atsumi), Tada (JEMA), Uno (JANSI, substitute for Kurata), Takahashi, Okamoto, Shirai, Umeki, Inada, Yamamoto, Asaoka (NRRC)

4. Proceedings:

(1) The research plan for fiscal year 2020

○NRRC presented on the FY2020 R&D plan.

(Remarks from members ◆Industry members, ◇CRIEPI members)

◆Considering the needs of those who are doing ‘communication’ with the public, it is realistic to provide a way of communication that taking safety measures for how our efforts are linked to practical safety rather than discussion about safety goals and standards.

◇We will proceed to communicate with public relations section at each site and implement the solution to the problem based on the observation.

◆In ‘risk communication’, it is important to make it visible what we're doing and how safe we are.

(2) Status of NRRC Activities

○NRRC presented on the following topics.

- Outline of Seismic Assessment Technology
- Outline of External Natural Hazard Research such as Tornado
- Status of Study on Advancement of Seismic PRA
