

Summary of 27th Technical Conference

1. Date: September 6, 2019 (Fri.) 09:30 - 11:30
2. Place: Board Room, Otemachi Headquarters,
Central Research Institute of Electric Power Industry
3. Participants:
Chair: Yokoo (NRRC)
Members: Katsuumi (Hokkaido EPCO), Tada(Tohoku EPCO, substitute for Kanazawa), Tani, Murano (TEPCO Holdings), Ihara, Nakagawa, Hamada (Chubu EPCO), Ueno (Hokuriku EPCO), Miyata, Tada, Yoshihara (Kansai EPCO), Hayashi (Chugoku EPCO), Nakagawa (Shikoku EPCO, substitute for Watanabe), Azetsu(Kyushu EPCO, substitute for Hashimoto), Yamaguchi (JAPC), Ogaki (JNFL), Ishikura(J-Power), Usui(Toshiba), Nogami (Hitachi-GE, substitute for Konno), Yamagishi (MHI), Atsumi (FEPC), Tada (JEMA), Kurata (JANSI), Takahashi, Okamoto, Shirai, Umeki, Inada, Yamamoto, Asaoka (NRRC)
4. Proceedings:
 - (1) Research plan for fiscal year 2020.
 - NRRC presented for Y2020 R&D plan.
 - (Remarks from members ◆Industry members, ◇CRIEPI members)
 - ◆Does the research focusing on aerosol take on a unique approach, which is rarely conducted overseas?
 - ◇The evaluation focuses on the growth of the particle size of aerosol having no knowledge and experience overseas, and in particular, the particle size greatly affects the behavior of the aerosol.
 - ◆Do you mean that EPRI's internal flooding PRA guide will be used in Japan in light of the fact that it is a world-class de facto standard?
 - ◇There are a number of examples have been showed state-of-practice in it. In order to use the standard in Japan, there were some areas where the explanation had to be added.

(2) Status of NRRC Activities

○NRRC reported on the following topics.

- Action Plan for RIDM Process Implementation
- Workshop on Peer Review Implementation
- Seismic PRA Project
