

Summary of 28th Technical Conference

1. Date: November 28, 2019 (Thu.) 10:00 - 12:00

2. Place: Board Room, Otemachi Headquarters,
Central Research Institute of Electric Power Industry

3. Participants:

Chair: Yokoo (NRRC)

Members: Yamanaka (Hokkaido EPCO, substitute for Katsuumi), Kanazawa (Tohoku EPCO), Tani, Murano, Yamamoto (TEPCO Holdings), Ihara, Nakagawa, Hamada (Chubu EPCO), Ueno (Hokuriku EPCO), Miyata, Tada, Yoshihara (Kansai EPCO), Hayashi (Chugoku EPCO), Watanabe (Shikoku EPCO), Hashimoto (Kyushu EPCO), Yamaguchi (JAPC), Ogaki (JNFL), Ishiguro (J-Power, substitute for Ishikura), Kawamura (Toshiba), Konno (Hitachi-GE), Yamagishi (MHI), Yamanaka (FEPC, substitute for Atsumi), Tada (JEMA), Kurata (JANSI), Okamoto, Shirai, Umeki, Inada, Asaoka, Toyoda (NRRC, substitute for Yamamoto)

4. Proceedings:

(1) Research plan for fiscal year 2020.

○NRRC presented of FY2020 R&D plan.

(Remarks from members ◆Industry members, ◇CRIEPI members)

◆When using the PRA model on an actual plant, the utilities should be considered how to apply it.

◇The NRRC needs to fully recognize that point. In fact, it is the utilities to implement PRA. We want to think about how each person in nuclear will be able to grasp it and deal with it.

◆NRRC should've shared information with other experts to develop and improve for the PRA model

(2) Status of NRRC Activities

NRRC presented on the following topics.

- Publication of the RIDM Action Plan's Status
- 13th Meeting of the Chief Nuclear Officers (CNO) Meeting
- 12th Technical Advisory Committee (TAC)
