### 1) **Research Results in FY2014**

Program coordinators of NRRC reported the major research results in FY2014.

(Remarks of the industry members)

A realistic goal should be set to apply HRA guidelines to actual PRAs because setting unreasonable goals hastily will lead to a half-finished work.

### 2) **Summary of Technical Advisory Committee (TAC) Meetings**

Organizers reported the results of the 3rd Technical Advisory Committee meeting held in May 25 ~ 28.

### 3) **Discussion with Dr. Apostolakis**

Dr. Apostolakis and industry members exchanged opinions on how to proceed to develop Japanese industry safety goals.
