Mr. J.W. Stetkar
Chairman
Technical Advisory Committee, NRRC

Subject: RESEARCH ON HUMAN RELIABILITY ANALYSIS METHODS

Dear Chairman Stetkar,

Thank you for the letter dated November 1, 2014 on this subject.

We agree with both of the recommendations contained in that letter. We have started reviewing relevant HRA literature including the Integrated Decision-Tree Human Event Analysis System (IDHEAS) methodology. After we review the literature, we will explore the possibilities for collaborative research with the U.S. NRC and EPRI.

Sincerely,

George Apostolakis
